SUMMARY

Full-stack developer skilled in **React**, **Next.js**, **Node.js**, and **PostgreSQL**, experienced in building secure, scalable systems, REST APIs, and deploying production apps with **Docker** and **VPS** for real-world automation solutions.

EXPERIENCE

House of UD | *Full-Stack Developer*

Jan 2026 – Jun 2026

- Designed, developed, and maintained multiple **websites and landing pages** for brand clients including the **Barber Syndicate** e-commerce platform using **Next.js** and **React**.
- Built and deployed a cross-platform **e-commerce mobile application** for Barber Syndicate using **React Native (Expo)**, integrating product listings, cart, and order management.
- Managed web hosting infrastructure via **cPanel** and **VPS**, handling server configuration, deployments, and uptime reliability.
- Worked with **PostgreSQL**, **MySQL**, and **Prisma ORM** for data modeling and backend API development.
- Received a **Pre-Placement Offer (PPO)** after the first month of internship based on performance.

Spycore Systems | *Full-Stack Developer Freelancer*

Jun 2025 – Dec 2025

- Designed and developed a secure Digital Malkhana System using **Next.js**, **PostgreSQL** and **Prisma**.
- Implemented **JWT-based authentication** and **role-based access** control for secure access across departments.
- Built and deployed **Dockerized PostgreSQL** and backend services on VPS, improving **reliability** and **scalability** for **multi-district** usage.
- Enabled digital tracking of seized property across **15+ districts**, reducing manual record handling and improving audit readiness.
